### **Fiscal Analysis of Proposed Revised Fees – Environmental Health & Engineering**

#### **Amendment to Chapter 11, Article II, Section 11-24 of the Palm Beach County Code**

The Palm Beach County Health Department (PBCHD), Division of Environmental Health and Engineering (EH&E) collects fees for certain annual licenses, plan reviews, permits, written approvals and other miscellaneous services. Collection of these fees supports regulatory activities which protect the public from disease-causing agents in the environment. Palm Beach County Code Chapter 11, Article II, Section 11-24 authorizes fees for programs and services that the county has directed the PBCHD to carry out, but for which fees are not established by state statute. Currently, these county-authorized fees provide approximately \$800,000 of revenue annually, out of EH&E's annual \$10.2 million dollar budget (8%). An additional 1.5 million comes from state authorized fees, meaning approximately 23% of the cost of delivering services is supported by fees.

The county fee ordinance for County Health Department Licenses and Approvals was last updated in 1997. The current amendment proposes to increase many of the current fees to meet the increased cost of providing services; however some fees are being eliminated or combined to reduce the regulatory burden on facilities with multiple licenses. There are also a few proposed new fees, which either provide funding for currently unfunded activities or supplement existing state fees that are not sufficient to support the level of services currently being provided in this county. Although overall fees are being increased, a few programs are experiencing a dramatic reduction in total fee collection due to the slowing of new residential housing construction. The combined anticipated impact to the bottom line for the next budget year is as follows:

	<b>Projection used for 07-08 budget</b>	<b>Updated fee projection using current fee amt</b>	<b>Updated fee projection using proposed fee amt</b>	<b>\$ Increase</b>	<b>% Increase</b>
Exist. County fees	<b>\$832,106</b>	\$711,437	\$847,887	\$136,450	19%
New County fees	<b>\$ 0</b>	\$ 0	\$195,775	\$195,775	n/a
All County Fees	<b>\$832,106</b>	\$711,437	\$1,043,662	\$332,225	47%

Anticipated **net increase** for 08-09 over 07-08 budgeted amount = 25%, or \$211,556 in additional county fee revenue.

Anticipated budget shortfall if increases are not implemented = \$120,669, or a 15% shortage in county fee revenue.

The attached spreadsheets give an itemized accounting of each fee, showing the current and proposed amounts, along with the number of facilities affected. The current and projected revenue are also shown, along with the dollar increase and percent increase. Existing fee schedule items are shown together, followed by the proposed new fee items. Fee amounts that are increasing are highlighted.
